POWER APPS INDUSTRIAL INTERNSHIP

INTRODUCTION

Power apps is the service provided by microsoft to create applications inside organizations in a very simple and efficient manner. It helps to create the applications with minimal efforts as it is a low code platform.

It provides security features also like whether person is authentic or not and which person is authorized to do which task.

It provides us to merge with many services called connectors like Ms Excel, azure cloud services and with git etc.

METHODOLOGY OF CREATING APPLICATIONS

CANVAS APPLICATIONS

It helps us to create user applications with a custom or good user interface.

MODEL DRIVEN APPLICATIONS

It helps us to create applications in scenarios like where data is complex and important and user interface is comparatively less important.

LEARNINGS FROM THE INTERNSHIP

REAL TIME SCENARIOS

I learned about how to convert the users idea practically into the application.

TEAM WORK

I learned about how to work in a team and also learned from them important values like honesty, punctual and hard work.
